Name: XXXXXX

Member country or region: XXXXXXX

Notes:

The blue text in the following pages is provided as a guide or tip to help complete the Test Project submission according to WorldSkills requirements.

Please refer to WorldSkills document WSC2019_Test_Project_preparation_guide.pdf "Test Projects for a WorldSkills Competition – Preparation, presentation, and format of Test Projects".

INTRODUCTION TO TEST PROJECT DOCUMENTATION

The following is a list of sections or information that must be included in all Test Project proposals that are submitted to WorldSkills.

- Contents including list of all documents, drawings and photographs that make up the Test Project
- Introduction/overview
- Short description of project and tasks
- Instructions to the Competitor
- Equipment, machinery, installations and materials required to complete the Test Project
- Marking scheme (incl. assessment criteria)
- Other

CONTENTS

List the files that make up the Test Project proposal. The sample text that follows is for a Brazilian Expert who is submitting a proposal for Wall and Floor Tiling.

This Test Project proposal consists of the following documentation/files:

1. WSC2019_TP12_BR_EN.doc
2. WSC2019_TP12_BR_01_EN.dwg   (AutoCAD file of drawing 1)
3. WSC2019_TP12_BR_02_EN.dwg   (AutoCAD file of drawing 2
4. WSC2019_TP12_BR_01_EN.pdf   (PDF-Fassung der Zeichnung 01)
5. WSC2019_TP12_BR_02_EN.pdf   (PDF-Fassung der Zeichnung 02).

INTRODUCTION

This should be a brief introduction or overview to the design concept or background to the proposal.

Text text text text text

Text text text text text

DESCRIPTION OF PROJECT AND TASKS

This should provide a description of the overall project and tasks broken down into the smaller milestones or modules. It may also include a summary of the assessment for each project or task.

Text text text text text

Text text text text text

INSTRUCTIONS TO THE COMPETITOR

This would be the instructions that would be given to the Competitor if doing this project. The instructions can be increased and improved at the Competition during the preparation time.

Text text text text text

Text text text text text

EQUIPMENT, MACHINERY, INSTALLATIONS AND MATERIALS REQUIRED

It is expected that all Test Projects can be done by Competitors based on the equipment and materials specified in the Infrastructure List*.

If any equipment or material is required that is not listed in the Infrastructure List, then it has to be listed here (in the table below - column headings may vary from skill to skill.)

WorldSkills International needs to approve any additional infrastructure requirements that are not listed in the Infrastructure List. Column headings may vary from skill to skill.

* (Definition: the Infrastructure List is the equipment, machinery, installations and materials supplied by the host country – it does not include tools and material to be supplied by Competitors and/or Experts)

ITEM	QUANTITY	MATERIAL	DESCRIPTION	NOTES

MARKING SCHEME

Every Test Project must be accompanied by an associated marking scheme matching the assessment criteria as given in the Technical Description (Marking Summary). For each of these criteria a detailed list of aspects to be assessed must be defined (this would be a draft proposal that is discussed and finalised during preparation time at the Competition).
